	Introduction to the Policy
	Sale Sharks accepts its responsibility for the safety and well-being of Children (any person under the age of 18 years), who interact within the organisation and its staffing.
	Our aim is to ensure a safe, secure environment for all. Procedures have been put in place to prevent or minimise the risk of abuse occurring.
	Safeguarding training, monitoring of staff and volunteers will be audited annually to ensure suitability.
	Sale Sharks will also take appropriate action and reporting, when staff are made aware of abuse taking place.
	One of the important differences between safeguarding adults and children is the age of the person. Hence why separate policies have been written for Children and Adults at Risk. (Adults may choose not to act to protect themselves and it is only in extreme circumstances the law intervenes. This is usually when an adult is assessed to lack capacity).
	The Purpose of the Child Protection Policy
	To provide protection for children who receive services from Sale Sharks and associated departments
	<ul> <li>To provide staff and volunteers with guidance on procedures they should adopt if they suspect somebody may be experiencing or be at risk of harm.</li> </ul>
	• This is a whole club policy encompassing all departments including commercial, foundation and academies.
	<ul> <li>This is not exhaustive and will be supported by departmental specific policies based around needs assessments.</li> </ul>
	We recognise that:
	• Every person should have the right to live a life, free from abuse, regardless of age, disability, gender, race, religious belief, sexual orientation or identity and everyone has the right to equal protection from all types of harm or abuse
	<ul> <li>Working in partnership with children and their support networks where required is essential in promoting and embedding this policy.</li> </ul>
	We will seek to safeguard children by:
1	<ul> <li>valuing them, listening to, and respecting them</li> </ul>

adopting safeguarding guidelines and best practice through procedures and training				
• providing a code of conduct for staff, volunteers work placement students etc.				
• recruiting staff and volunteers safely, ensuring all necessary DBS checks are made				
• sharing information about safeguarding and best practice				
• sharing information about concerns, reporting to appropriate agencies in a confidential				
recorded manner				
<ul> <li>providing effective management for staff and volunteers through supervision, support, and training.</li> </ul>				
The Sale Sharks and RFU is committed to creating and maintaining a safe and positive environment for everyone to play and enjoy rugby union. To safeguard the welfare of all involved in the game, particularly those deemed to be at risk.				
The policy applies to all children involved in rugby whether participating or watching.				
There are three main elements to our policy:

<ul><li>trained and are appropriate to work with Under 18's .</li><li>Procedures for identifying and reporting cases, or suspected cases, of abuse. The definitions of the second second</li></ul>				
the six categories of abuse are attached (see Appendix A)				
3. Supporting vulnerable children or those who may have been abused or, witnessed violence towards others				
Children are defined for the purpose of this policy in accordance with the UN convention of Rights of a				
Child as anyone under the age of 18. The UK and RFU have ratified this convention.				
Our policy applies to all staff, paid and unpaid, volunteers, work placements , interns and people working on behalf of Sale Sharks and all departments/sections and is reviewed annually.

3.	Risk Management
2	All activities involving Children must be risk assessed by the Sale Sharks, which may at times involve discussion with additional service providers and venues.
	However, it is important that staff and volunteers ask the following questions:
	What is the activity?
	Which age groups are involved?
	What requirements are needed if working with Children?
	• What is the environment like where the activity is taking place?
	• Are there any special needs, disability or other circumstances that need to be considered?
	Are the groups mixed in age, ability, and gender?
	What experiences and qualifications do the organisers/staff possess?
3. 3	Responding to allegations or suspicions against a member of staff
	Any allegation of abuse made against a member of staff will be reported straight away to Sale Sharks Head of Safeguarding. In cases or the event of the Safeguarding Lead, being subject of an allegation, must be reported to another designated staff member and the
	Senior Management Team or Safeguarding team at Twickenham. (safeguarding@rfu.com)
	If there is an allegation (or a suspicion) of abuse against a member of staff a decision about whether to suspend the person, will be decided by the Senior Management Team and DSL in line with the disciplinary procedure.
	In consultation with the RFU, Sale Sharks will assess all cases to decide whether a member of staff or
	volunteer can be reinstated and how this can be sensitively handled. This will be dependent on the
	outcome of any investigation or criminal investigation and Sale Sharks will ensure that it does not
	breach the Children's Act 1989 & 2004; and Safeguarding Vulnerable Groups Act 2006 by reinstating person who is on the barred list.
	Additionally, this should fall in-line with RFU Regulations 21 which can be found using:

	If the RFU assume management of a case the club should take no further action until advised by the RFU. Especially if incident is being investigated by police and social services

	Preserving Evidence
	The first concern should be the safety and welfare of the abused person. Your efforts to preserve evidence may be vital. In all cases the preservation of evidence is crucial especiall if the police investigation is to be effective. What you do or do not do in the time whilst you are waiting for the police to arrive may make all the difference.
	Useful guidelines:
	<ul> <li>In physical abuse cases, where an individual wishes to show you an injury, only</li> </ul>
	observe what they consent to show you and what is appropriate.
	<ul> <li>Do not touch what you do not have to. Wherever possible leave things as they are.</li> </ul>
	Do not clean up, do not wash anything or in any way remove fibers, blood etc.
	<ul> <li>If you do have to handle anything at the scene keep this to a minimum</li> </ul>
	• Do not touch any weapons unless they are handed directly to you. If this happens,
	keep handling to a minimum. Place the items/weapons in a clean dry place and inform the police of the location.
	<ul> <li>Preserve anything that was used to comfort the abused person, for example a blanket.</li> </ul>
	• Secure the room. Do not allow anyone to enter unless strictly necessary to support you or the abused person and/or the alleged perpetrator, until the police arrive
	<ul> <li>Ensure that no one has physical contact with both the abused person and the allege</li> </ul>
	perpetrator as cross-contamination can destroy evidence.
	<ul> <li>Encourage the victim not to shower especially in cases of sexual and physical assaul</li> </ul>
	Encourage the victim not to change clothing
	• Even when the victim say they do not want police involvement, preserve items
	anyway as they may change their mind later or you may be legally obliged to inform the police.
	• Encourage the person not to eat or drink if there is a possibility that evidence may be obtained from the mouth.
	• Do not handle items or the victim unless necessary. If there are latex gloves or
	protective clothing available, use them
	It is essential that, whatever the nature of the suspected abuse, the Child is separated from the person who is or is thought to be the abuser. It is important that disruption to the life of the victim is kept to a minimum, therefore, if it is possible for the alleged perpetrator to leave the scene, this should be the preferred option. However, if it is not possible, an alternative place of safety should be sought as the immediate safety of the victim is the highest priority. Sometimes a victim needs to be moved to a place of safety – i.e., Hospital/police station or even fire station. In some cases, a different location within the facility
	Malicious Allegations
	Sale Sharks acknowledge that at times, malicious allegations are made against individuals and impartial investigations/enquires, working in collaboration with the RFU safeguarding team will
	reveal a suitable outcome. This must be born in mind when speaking to and dealing with "alleged perpetrators".
+	Record Keeping

	• Keep clear, detailed, accurate, written records of concerns about the Child (noting the date, event and action taken).	
	<ul> <li>Ensure all records are kept securely, either hard copies or electronically and password protected.</li> </ul>	
	All information will be stored and handled in line with the Data Protection Act 1998 principles. The Data Protection Act does not prevent the designated senior staff members from sharing information with relevant agencies, where that information may help to protect a Child.	
	Sale Sharks will also work in-line with the RFU GDPR toolkit:	
	https://www.englandrugby.com/participation/running-your-club/legal-and-administration/data- protection	
4	Supporting Children who may have been abused	
	Children may be subjected to abuse in the form of neglect, physical, emotional, or psychological; financial, discriminatory, institutional abuse, discrimination, exploitation, sexual abuse, or sexual mistreatment; or lack of care that leads to injury or harm.	
	It commonly occurs within a relationship of trust or responsibility and represents an abuse of powe or a breach of trust.	
	Abuse can happen regardless of their age, gender, race, ability, culture, or sexual orientation. It can also occur 'peer on peer'/ child on child.	
	Poor practice is unacceptable and will be treated seriously with appropriate action, training and mentoring sanctioned.	
	Any behaviour that contravenes existing Codes of Conduct infringes an individual's rights and/or reflects a failure to fulfil the highest standards of care is an indication of poor practice. Those who are deemed vulnerable may not be aware that poor practice or abuse is taking place, as they may deem the behaviour as 'acceptable'.	
	It is important that all staff are aware of the different forms of abuse and the different signs that main indicate that a Child is the victim of abuse.	
	Abuse can also be under the grounds of discrimination, which is the treatment of one particular group of people less favourably than others because of their race, colour, nationality, or ethnic or national origin. The law in Britain recognises two kinds of discrimination: direct and indirect.	
	Direct discrimination occurs when for example race, colour, nationality, or ethnic or national origin used as an explicit reason for discriminating.	
	Indirect discrimination occurs when for example there are rules, regulations or procedures operation which have the effect of discriminating against certain groups of people.	
	<u>Positive discrimination</u> occurs when for example favoring of individuals belonging to groups which suffer discrimination.	

	Cher related polices
	Sale Sharks also has in place several other policies which are also support Safeguarding for all.
5.	Whistleblowing Policy
1	All organisations face the risk of things going wrong, or of unknowingly harboring malpractice which involves other workers and/or service provision, which may have an impact or threaten the wider publi interest. The Club believes it has a duty to identify such situations and take the appropriate measures to remedy the situation. By encouraging a culture of openness within our organisation, the Club believes i can help prevent malpractice - prevention is better than cure. That is one of the aims of this policy.
	Workers have a right and duty to raise matters of concern they may have about the services being offered by the Club or serious malpractice associated with them. Workers may be worried that by reporting such issues they will be opening themselves up to victimisation or detriment or risking their job security. However, all staff are protected by law if they raise concerns in the right way. Provided they are acting in good faith, it does not matter if they are mistaken.
	By knowing about malpractice at an early stage the Club stands a good chance of taking the necessary steps to safeguard the interests of all staff and protect the organisation. In short, please, do not hesitat to "blow the whistle" on malpractice.
	If there is any concern about the possibility of malpractice, it should, in the first instance, be raised with the Manager, or, if it is believed to involve the Manager, then to another member of the Senior Management Team, or the Chief Executive. This is designed to ensure workers raise concerns properly and to ensure that mechanisms exist in the Club whereby issues raised by workers will be addressed quickly and effectively. It is legitimate to raise issues with appropriate authorities outside the Club if an issue is not addressed by the Club, or it is reasonably felt that raising it internally may lead to evidence of malpractice being concealed.
	Please note that this policy does not affect the existing Grievance Procedure. If workers have a complaint about their own personal circumstances, then they should use the normal Grievance Procedure. If workers have concerns about malpractice within the organisation, then they should use the procedure outlined in this policy. This policy is applicable to all the Club staff and volunteers.
5.	Complaints Policy
2	All complaints will be dealt with in accordance with the Sale Sharks Complaints Policy. Due consideration will be given to the nature of the complaint if it contains a safeguarding concern. No complaint can be dealt with if the concern is being dealt with by statutory agencies, as this may hinder any legal or care proceedings. Complainants of a safeguarding matter can refer their concerns to either Sale Sharks Safeguarding Lead or the RFU Safeguarding Officer.
5.	E-Safety Policy
3	Sale Sharks has developed a separate E-Safety Policy. This includes information about use of social media, taking and sharing of photographs and inappropriate internet use etc.
